

Hướng dẫn restore cho reseller trong DirectAdmin

Authored by: **Thần Tráng Dã**

Saved From: [./article.php?id=31](#)

Sau khi upload backup lên `/home/admin/user_backups` -> Ta chọn "Manage User Backups"

Chọn backup -> "Submit"

Restore Backup

Step 1: From Where	Step 2: Select IP	Step 3: Select File(s)
☒ Local: <code>~/admin/user_backups/</code> ☐ Ftp IP: Username: admin Password: Remote Path: / Port: 21 Update Files	☒ Use the IP stored in the backup ☐ Use the IP from the list: 103.3.244.68 - Shared - Server * Note that you must set the IP to be shared if you want to add multiple users to it. If you select a non-shared IP, you can only restore 1 user to it. * If the user already exists, this setting will have no effect.	Location: <code>/home/admin/us</code> File duongtt.tar.gz

Step 4

Sau khi đã thực hiện restore xong sẽ có thông báo cho ta trong "Message System"
